VICTIM RECOVERY SYSTEM

AS EASY AS....

The **x7ix Victim Recovery System** was created by a Public Safety Diver for Public Safety Divers.

The x7ix Victim Recovery System allows for one diver to enter the water and place the body in the body bag in zero visibility in less than a minute.

The diver locates and straddles the body. Then pulls the body bag over the body starting at the head. Once the body bag is pulled over the body the circle is closed and snapped shut. The body can now be removed from the body of water.

**BENEFITS**

*Affordable*

*Ease of use*

*ROV Friendly*

*Reduces Bottom Time*

*500lb PLUS Capacity*

*Helps Preserve Evidence*

*Minimizes Victim Handling*

*Easy Removal of Floating Victim*

*Discreet Removal of Hanging Victim*
